<b>Total aid disbursed per quarter</b>					
<b>Balance Remaining per quarter</b>					
<b>TOTAL CASH BALANCE:</b>					

Divided by \_\_\_\_\_ months = \_\_\_\_\_ Mt. Sierra Minimum Monthly Installment Payment  
 First payment due: \_\_\_\_\_ and every 1st of the month thereafter.

The purpose of the Mt. Sierra monthly installment payment plan is to provide an interest-free loan source for a student to pay the cost of tuition and books/supplies/lab fees associated with their program of study. In some instances, financial aid will be sufficient to cover these direct school expenses; however the student is expected to make regularly scheduled monthly payments until all aid is applied and the account balance is zero.

- You may also rescind the award listed above at any time. To qualify for Aid, you must be maintaining Satisfactory Academic Progress (SAP) and must take at least 6 credits or more per quarter. You are responsible for any aid not received.
- I authorize Mt. Sierra College to apply my Title IV funds to my account for educational expenses for all periods of enrollment. All grants and loan proceeds will be credited via Electronic Funds Transfer (EFT) to my tuition school account.
- I am responsible for applying for funds to pay my tuition. If I do not apply for funds, I understand that I must pay cash for any balance owed on my current and future tuition school account.
- All financial aid funds will be applied toward current and future tuition for classes in which I have already registered, or will register, including payment of tuition costs. No interest is paid to the student on any funds held by the college. I understand that I can change or cancel this authorization at any time. I also understand that my request to cancel or change must be made in writing.
