OUR PROGRAMS

VISUAL DESIGN
Every student at Mt Sierra College is immersed in the world of visual design and challenged to create their best work alongside like-minded peers and mentored by caring and knowledgeable teachers who are accomplished practitioners in the field. As a Visual Design major, you will be enrolled in coursework that includes UI/UX design, branding, multichannel publishing, packaging, web and interaction design.
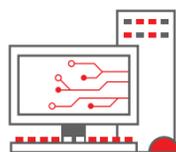

GAME ARTS & DESIGN
As a Game Arts & Design major, you will learn the entire process of bringing a game from a concept to marketable product including story development, animation, and gameplay development. You will be provided a solid foundation in game development, programming, level design, 3D asset creation, visual effects and lighting, and sound.

COMPUTER INFORMATION TECHNOLOGY
As a Computer Information Technology major, you will master programming, operating systems, database management, systems analysis and design, as well as networking technologies. The core curriculum covers the disciplines of software engineering, programming languages, database management, computer architecture, operating systems, computer networks, and web design.
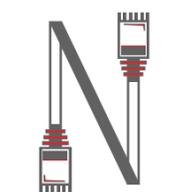

INFORMATION SECURITY
As a student specializing in Information Security, you will receive coursework and hands-on experience in security fundamentals including security policy development and management, cyber law and ethics, computer and data forensics, applied local area networks, wide area network and wireless security, disaster recovery, and security development life cycle management.

NETWORK COMMUNICATIONS
As a graduate from the Network Communications program, you will master general network communications, telephony and data communications, wireless technologies, emerging technologies, networking, internet and intranet technologies. Additionally, you will be familiar with voice and data communication, local and wide area network administration, computer integration, Windows, UNIX and LINUX operating systems, internet working, and transport protocols.

At Mt Sierra College, you are more than a number. Our small class sizes (averaging thirteen or fewer students) and our commitment to offering individualized, personal attention allows for meaningful interaction and a practical real-world experience.

AVETT BALTAYAN
INFORMATION TECHNOLOGY
ALUMNI

"I recieved a thorough education at Mt Sierra. The staff is very helpful in every aspect of life and education. The small classes made it much easier for me to ask questions and open up discussions. "

WHY STUDENTS CHOOSE US

▶ Hands-on courses featuring real-world learning situations

▶ Personalized assistance from Admissions to Graduation

▶ Academic Support Resources including free tutoring

▶ Small class sizes that give every student the individualized attention they need

▶ Personal Career Advising that focuses on employment assistance and career development

▶ Industry-driven degrees and stimulating courses that combine theory and practice

JORGE CASIQUE
GAME ARTS & DESIGN
ALUMNI

"The faculty challenged and helped me reach my true potential. The experiences will stick with me for a lifetime. "

OUR PROFESSORS MAKE ALL THE DIFFERENCE
At Mt Sierra College, students learn from industry professionals with real-world experience in their chosen field of study. Our degrees are industry-driven and designed to train students for the workplace of the future. All courses are made to challenge and inspire while recreating the same tasks faced on the job.

LIFELONG LEARNING
Technology is always changing and our students grow with it. Mt Sierra College's commitment to students extends beyond graduation. As part of the Lifelong Learning Program, graduates may enroll in newly developed or existing courses to stay up-to-date on the latest industry trends, innovations, and standards in their respective fields.
